PROCESS AID / FILTER AID FOOD CONTACT DECLARATION

The purpose of this statement is to certify that the following products from The Dallas Group of America Inc. (DGA) comply with the legal definition of "processing aid" in the Regulation (EC) No. 1333/2008,[1] U.S. Code of Federal Regulations[2] as well as the Codex Alimentarius Commission.[3]

MAGNESOL®	MAGNESOL® Polysorb 30-40	DALSORB® 3000M
MAGNESOL® XLM	MAGNESOL® MP120	DALSORB® 2500M
MAGNESOL® Cartridge Grade	MAGNESORB® 2000R	D-SOL® D60
MAGNESOL® Haze Out	MAGNESORB® 1500R	
MAGNESOL® HMR-LS	DALSORB® F50	

These products are available on the market and when used as processing aids and more specifically as filtering aids for edible frying oils, polyols, surfactants, or other such products, it is not relevant to consider their status under food-contact materials legislation in the European Union or any other jurisdictions, as they fall outside the scope of such legislation. In particular, the following Regulations and Standards do not apply to food processing aids:

- Regulation (EC) No. 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food, as amended (known as 'the EU Framework Regulation');
- Commission Regulation (EU) No 10/2011 of 14 January 2011 on plastic materials and articles intended to come into contact with food, as amended[4] (known as 'the EU Plastics Regulation');
- GSO 2231:2012 Gulf Cooperation Council regulation on General Requirements for the materials intended to come into contact with food;

---

1 Regulation (EC) No 1333/2008 of the European Parliament and of the Council of 16 December 2008 on food additives, Article 3.2(b).

2 *See* 21 Code of Federal Regulations ('CFR') 101.100(a)(3)(ii).

3 PROCEDURAL MANUAL CODEX ALIMENTARIUS COMMISSION Joint FAO/WHO Food Standards Programme 2019, Twenty-seventh edition, page 24 (32/258), CODEX STAN 1-1985 General Standard for the Labelling of Prepackaged Foods, page 1; as well as CODEX STAN 107-1981 General Standard for the Labelling of Food Additives when sold as such, page 2.

4 The Plastics Regulation has been amended by 15 amendments, which are the following:
COMMISSION IMPLEMENTING REGULATION (EU) No 321/2011 of 1 April 2011; COMMISSION REGULATION (EU) No 1282/2011 of 28 November 201; COMMISSION REGULATION (EU) No 1183/2012 of 30 November 2012; COMMISSION REGULATION (EU) No 202/2014 of 3 March 2014; COMMISSION REGULATION (EU) No 865/2014 of 8 August 2014; COMMISSION REGULATION (EU) 2015/174 of 5 February 2015; COMMISSION REGULATION (EU) 2016/1416 of 24 August 2016; COMMISSION REGULATION (EU) 2017/752 of 28 April 2017; COMMISSION REGULATION (EU) 2018/79 of 18 January 2018; COMMISSION REGULATION (EU) 2018/213 of 12 February 2018; COMMISSION REGULATION (EU) 2018/831 of 5 June 2018; COMMISSION REGULATION (EU) 2019/37 of 10 January 2019; COMMISSION REGULATION (EU) 2019/988 of 17 June 2019; COMMISSION REGULATION (EU) 2019/1338 of 8 August 2019 and COMMISSION REGULATION (EU) 2020/1245 of 2 September 2020.
Neither the original Plastics Regulation nor any of its amendments apply to our products.

- GMC Resolution No. 3/92 establishing the general criteria for food contact, food packaging and equipment or GMC RES 02/12 (amended by GMC RES 19/21) List of positive monomers, other starting substances and polymers authorized for the elaboration of plastic containers and equipment in contact with foods, and the specific regulations by country, according to the origin of the raw material;
- The Columbian Resolutions 683/2012, 4142/2012, 4143/2012, 0834/2013 and 0835/2013 that refer to various types of food contact materials.

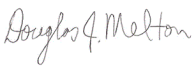

With regards to Title 21 of the U.S. Code of Federal Regulations we cannot state compliance broadly with this Title given that it contains many Regulations that do not apply to our products. The same holds true regarding a broad reference to USDA Requirements.

Also, the Columbian Resolution 4506/2013, the EU Regulation (EC) No. 1881/2006 and the Codex Stan 193-1995 that are all setting limits for certain contaminants in food, respectively in Colombia, in the EU, and worldwide, are not relevant since our products are not foods.

Finally, the EU Directive on toys is also not relevant as again our products are not toys and are not intended to be used in toys and thus fall out of the scope of the Toys Directive.

3 October 2024

Sincerely,

Doug Melton
Head of Product Compliance
