

FreshGround 100

Price € 5.315,00 **Article number** 8.034.300.31005

Description

The FreshGround 100 is a unique bean-to-cup solution that combines freshly ground coffee beans with a traditional brewing method. It delivers superb black filter coffee, freshly brewed per cup at the touch of a button. Perfect for hotel breakfast areas, on-the-go locations, and medium to large workplaces.

The FG100 configuration features one bean canister, allowing it to serve just coffee and hot water.

The highly innovative CombiBrewer is engineered for both versatility and performance. With a single brew cycle volume of 480 ml (32g of coffee) it offers flexible brewing with filter paper or paperless using the permanent filter. Switching between brewing methods can be done effortlessly in the field.

High levels of control throughout the brewing process ensure precision in every cup, while the easy-to-clean design and straightforward installation makes the FG100 truly practical.
