EPSERIES

TRUSTED FRYING.
NOW MORE ACCESSIBLE.

Our Most Robust, Yet Affordably Priced Electric Fryer

PITCO®

ELEVATE YOUR FRYING, NOT YOUR BUDGET.

Pitco has done it again. The EP Series brings dependable electric frying performance to more kitchens worldwide — combining Pitco's renowned quality with a mid-tier price point. Operators everywhere can now access a robust, reliable fryer designed for busy kitchens, without sacrificing consistency or performance.

- Lower cost than premium electric fryers
- Flexible configurations for every kitchen size
- Cold Zone (14" & 18" models) & Reduced Oil Volume (ROV – 14" models) versions available
- Proven Pitco reliability

THE EP SERIES DIFFERENCE

High-Performance Frying for the Busiest Kitchens

Kitchen operators are under constant pressure to do more with less. The EP Series comes at the right time, delivering on Pitco's century-long reputation for reliability with practical features like built-in manual filtration and computer controls. The result: **a quality fryer you can trust at the right price**.

8-BUTTON COMPUTER CONTROL

Programmable recipes with Cook & Hold timers. **Flex Time** for consistency. "**Instant On**" heat for fast recovery.

ROBUST CONSTRUCTION WITH FULL-PORT DRAIN VALVES

Large 1.2" drain valves and wide drain lines minimize clogging in high-volume kitchens.

PITCO RELIABILITY TESTING

Every EP fryer undergoes the same rigorous lifecycle testing as Pitco's flagship products.

STANDARDS COMPLIANCE
(CE APPROVAL PENDING)

Designed for international markets.

DURABLE PIVOTING RIBBON HEATING ELEMENTS

Lift for easy cleaning, deliver consistent heating performance.

BUILT-IN 2-STEP MANUAL FILTRATION

Flat sheet filtration system extends oil life and reduces downtime.

EFFICIENT. RELIABLE. ACCESSIBLE.

All You Need and Available Now

Flexible applications: Ideal for independent and chain restaurants, cafeterias, healthcare facilities, schools, and more.

Scalable Configurations: 14” Full or Split Vat and 18” Full Vat sizes available. Cold Zone and ROV versions available on 14” models.

Efficient Fuel Source: Electric design supports energy efficiency and sustainability goals.

Proven Reliability: Each fryer is engineered and tested to meet Pitco’s global standards.
