MERRYCHEF

EU Declaration of Compliance – Food Contact Materials

1. **Manufacturer / Declarant:**

Welbilt UK Ltd: Merrychef Brand

2. Materials Covered

This declaration applies to the following materials used in Merrychef equipment and accessories intended for direct or indirect contact with food:

- Stainless steel (grades AISI 304 / EN 1.4301 and AISI 430 / EN 1.4016)
- Aluminium and aluminium alloys
- Hard-anodised aluminium
- PTFE coatings and PTFE films
- Ceramic-based non-stick coatings

3. Applicable EU Food Contact Legislation

The materials listed above comply with the relevant requirements of the following European legislation:

- Regulation (EC) No. 1935/2004
  Materials and articles intended to come into contact with food
- Commission Regulation (EC) No. 2023/2006
  Good Manufacturing Practice (GMP) for materials and articles intended to come into contact with food

4. Material-Specific Compliance Statements

4.1 Stainless Steel (AISI 304 / AISI 430)

Stainless steel components intended for food contact comply with Regulation (EC) No. 1935/2004 and are suitable for food contact use in accordance with recognised European guidance for metals and alloys, including:

- Council of Europe Resolution CM/Res(2013)9 on metals and alloys used in food contact materials.

4.2 Aluminium and Hard-Anodised Aluminium

Aluminium and hard-anodised aluminium components intended for food contact comply with Regulation (EC) No. 1935/2004 and are suitable for food contact applications in line with:

- Council of Europe Resolution CM/Res(2013)9 on metals and alloys used in food contact materials.

Hard-anodised surfaces provide a stable, inert oxide layer suitable for repeated food contact under normal and intended conditions of use.

4.3 PTFE Coatings and PTFE Films

PTFE coatings and PTFE films intended for food contact comply with:

- Regulation (EC) No. 1935/2004, and
- Regulation (EU) No. 10/2011 on plastic materials and articles intended to come into contact with food, where applicable.

Overall and specific migration limits are met under normal and intended conditions of use.

4.4 Ceramic-Based Non-Stick Coatings

Ceramic-based non-stick coatings intended for food contact comply with Regulation (EC) No. 1935/2004 and are suitable for repeated food contact use.

Where applicable, raw materials and formulations are assessed against relevant requirements of Regulation (EU) No. 10/2011. The coatings are not formulated with intentionally added PFAS substances such as PFOA or PFOS.

5. Conditions of Use

The materials covered by this declaration are suitable for food contact under normal and intended conditions of use, including repeated use, provided they are used in accordance with Merrychef product instructions and are not mechanically damaged or misused.
